MINIMALIST DECOR

Scandinavia-inspired, uncluttered and stylish; minimalism embodies the idea of doing more with less. While the word might conjure up visions of monochrome rooms with sparse décor, it has evolved into multiple versions that include bohemian underpinnings, retro touches and punchy color accents.

CONTEMPORARY DECOR

Contemporary styling is all about creating an aesthetic that's trendy, inclusive and feels like it belongs in the present. Right now, it's all about muted color schemes, curated accessories and furniture with clean lines and soft edges. Work with natural elements, industrial accents and subtle prints to add your own distinctive warmth and charm.

ETHNIC DECOR

Recreating the warmth and charm of India is easy when you start with the right foundation. Choose custom-made pieces that show off your connection to the culture and handicrafts and add motifs that bring back memories of ancestral bungalows and grandma's colorful saris. Finally, temper it all by sticking to a handful of colors, earthy elements and plenty of natural lighting.

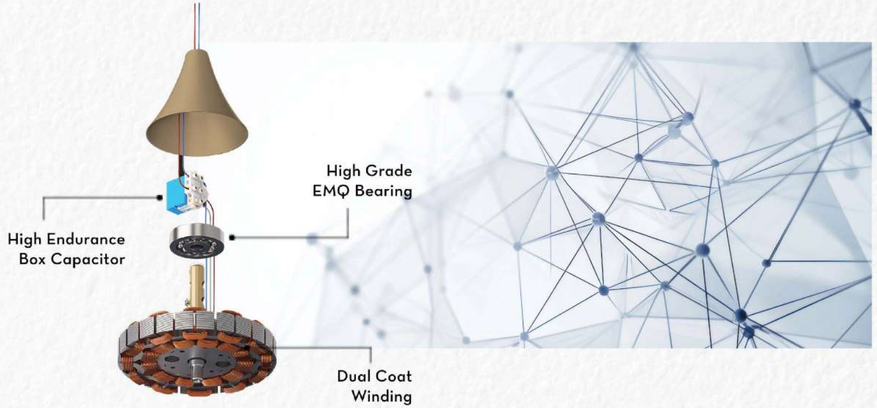
PREMION

Spruce up your interiors with Crompton's Premium & Designer range of fans.

DURATECH TECHNOLOGY

Duratech Fans come with 5 years Duratech warranty. Duratech uses premium components, designed to deliver a superlative performance over the years.

Here's a quick look at the key components that form the core of the Duratech technology.



Duratech comprises of:

High Endurance Box Capacitor
Duratech's high-endurance box capacitor, with a patented adapter, ensures superior performance over a longer period as compared to ordinary oil-filled tube-type capacitors.

High Grade EMQ Bearing
EMQ bearings used for the Duratech motor are the highestgrade bearings available for fans. They are silent and smooth, and have the additional advantage of reduced friction and vibration.

Dual Coat Winding
Dual-coat winding, offers double protection, ensuring better insulation and abrasion resistance when subjected to high temperatures and sudden overloads. This results in longer durability as compared to ordinary winding.

High Standard Hybrid Steel
Duratech fans use hybrid steel which is highly compatible with electric motors. The composition and the thickness of the steel ensures fan durability and efficiency.

*The Superflo's claim of India's highest air delivery fan (260 CMM air delivery) is based on internal laboratory tests conducted under ideal conditions and is applicable exclusively to Crompton's Metal Blade Induction ceiling fans in the 1200mm–1270mm sweep range. Actual performance may vary due to external factors. Crompton reserves the right to amend or withdraw this claim based on further testing or regulatory updates. Any Metal Blade Induction ceiling fan claiming superior air delivery must be registered with the Bureau of Energy Efficiency by December 31, 2024.
