100%
COPPER MOTOR
WITH HIGH TORQUE

Higher Power Output ⚡
With copper's excellent conductivity, the motor achieves higher power output with less energy loss, delivering optimal fan performance.

Consistent Airflow 🌀
The superior efficiency of copper motors guarantees strong, steady airflow for better cooling.

Enhanced Performance ⚡
Copper motors deliver more efficient and reliable operation, ensuring smooth and powerful fan performance.

Energy Efficient ⚡
Copper's low electrical resistivity ensures reduced power consumption, resulting in higher energy savings.

Durable and Long-Lasting 🔧
Built with high-quality materials, these motors are designed to endure regular use, providing long-term reliability.

***Built to last,
Powered by Technology.***

MEET THE NEXT BIG INNOVATION.

MICROCHIP CONTROLLED 100% COPPER BLDC MOTOR

ENERGY EFFICIENT, HIGH TORQUE AND LOW
TEMPERATURE RISE FOR LONGER MOTOR LIFE

An epitome of energy-saving technology in Ceiling Fans, BLDC Motor Technology enhances your comfort by reducing power consumption and hence, by lowering the electricity bills. What's more! While it saves energy, it keeps the performance of the Fan intact.

HIGH PERFORMANCE EVEN AT LOW VOLTAGES

Voltage fluctuations wouldn't affect your fan again, thanks to the BLDC Motor Technology that makes the fan perform to its fullest even during low voltages.

UP TO 50% ENERGY SAVING

Discover intelligent operation with BLDC Motor Technology that's designed to save up to 50% energy without impacting the fan's performance.

HIGH EFFICIENCY

Wastage isn't acceptable to BLDC Motor Technology. That's why it utilizes higher input power and puts it to good use.

HIGH TORQUE

While it saves energy, it gives more power to the fan by increasing its torque level.

AN EPITOME OF ENERGY SAVING TECHNOLOGY IN CEILING FANS

BLDC SERIES

Introducing the Brushless Direct Current (BLDC) motor: In the world of electric motors, the BLDC motor offers a blend of efficiency and reliability that's hard to beat. With up to 50% less power consumption compared to traditional AC motors, it's not only cost-effective but also environmentally friendly.

Aeroclean® Pro

Aeroclean Pro high speed exhaust fan with Goodbye Oil and Dust lacquer coating. These exhaust fans resist the accumulation of Oil and dust on the blades. They will make your kitchen easy to clean and healthy. High speed exhaust fans for excellent performance.

Features:

- 100% Copper motor for longer performance
- Special Goodbye Oil and Dust lacquer coating
- Lightweight and low noise performance

100%
COPPER MOTOR
WITH HIGH TORQUE

Key Specifications:

 Sweep Size	 Air Delivery	 RPM
15 cm (150 mm)	350 m³/h	2400 rpm
23 cm (230 mm)	1000 m³/h	2500 rpm

SMART FRESHNESS
FOR ENCLOSED
SPACES

SPECIAL APPLICATION FANS

Charm your guests with this one-of-a-kind special application range of fans. They will surprise you with their unique and exclusive features like superior air circulation, sleek design and efficient air delivery.

Mist Air® Prime

Dynamo®

Dominaire® Wall

100%
COPPER MOTOR
WITH HIGH TORQUE

Dominaire® Pedestal

Mist Air® Prime

Personalise your comfort with Usha's tower fan. Its 2 hours manual timer, tubular blower and wide oscillation make air flow efficient and effective.

Features:

- Ultra-thin body, compact and attractive design that fits anywhere
- 3 Speed settings and 2 hour timer to personalize your comfort
- Tubular centrifugal blower and wide oscillation feature for effective air circulation

100%
COPPER MOTOR
WITH HIGH TORQUE

		
Sweep Size	Air Delivery	RPM
NA	20 m³/h	1300 rpm

Dynamo®

A high speed personal fan which can be installed on the wall, table or ceiling. Personalise your comfort with multi-tilting mechanism and easy portability.

Features:

- Multi-utility fans
- Compact and attractive modern design
- High RPM

100%
COPPER MOTOR
WITH HIGH TORQUE

		
Sweep Size	Air Delivery	RPM
23 cm (230 mm)	1100 m³/h	2650 rpm

Dominaire® Wall

Designed for heavy industrial use, this air circulator has been built aerodynamically with precision built oscillating mechanism and conforms to ISI standards.

Features:

- Multi-utility fans
- Compact and attractive modern design
- High RPM

100%
COPPER MOTOR
WITH HIGH TORQUE

Key Specifications:

		
Sweep Size	Air Delivery	RPM
45 cm (450 mm)	7500 m³/h	1440 rpm
60 cm (600 mm)	16000 m³/h	1440 rpm
75 cm (750 mm)	22200 m³/h	1440 rpm

Performance conforms to IS: 2997-1964 standards

Dominaire® Pedestal

Heavy duty performance guaranteed in this pedestal fan with a cast iron base for greater stability and aluminium alloy blades for high air delivery. ISI marked.

Features:

- Aluminium alloy blades for high air delivery
- Corrosion protection with powder coated paint
- Available in multiple sizes

100%
COPPER MOTOR
WITH HIGH TORQUE

Key Specifications:

FAN SELECTION GUIDE

Star Rating System

Service Value=Air Delivery (m³/min)/ Wattage (W)

					
Sweep Size >1050 mm to <=1500 mm	>=4.0 to <4.5	>=4.5 to <5	>=5.0 to <5.5	>=5.5 to <6	>= 6.0
Sweep Size >750 mm to <=1050 mm	>=3.1 to <3.6	>=3.6 to <4.1	>=4.1 to <4.6	>=4.6 to <5.1	>= 5.1
Sweep Size >=600 mm to <=750 mm	>=1.5 to <2	>=2 to <2.5	>=2.5 to <3	>=3 to <3.5	>=3.5

Things you should know

1.

RPM stands for Rotations Per Minute, it refers to how many times the fan blades complete a full rotation in one minute.
2.

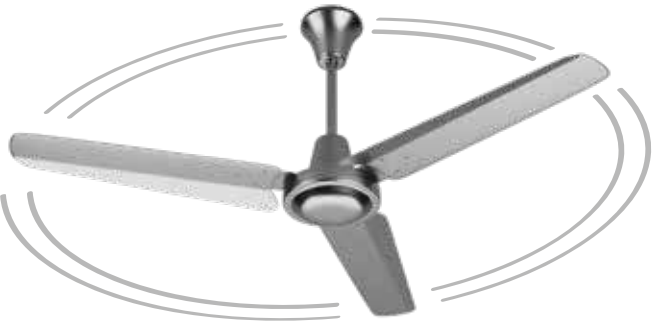

Air delivery for fans refers to the volume of air that a fan can move or circulate in a given amount of time. It is usually measured in Cubic Meters per Minute (m³/min)
3.

RPM alone doesn't determine air delivery — blade size, shape, and motor power also play a role.
4.

100% Copper Motor: All our fans feature a copper motor, which significantly reduces heat buildup. This not only improves the durability of the fan but also ensures it runs more efficiently over time.
5.

Safety Features: Every USHA ceiling fan is equipped with a safety cable that enhances its stability and provides additional support. This feature adds an extra layer of safety, ensuring the fan stays securely in place.

Sweep Size is the full diameter of the fan

Bigger sweep = better coverage for larger rooms

Based on Area (Square Footage) of the room

FIND THE RECOMMENDED BLADE SWEEP SIZE
